

SafeHaven Care Drivers

Driver Information Guide

Door-through-door transportation and mobility support for seniors across Greater Los Angeles. Drive on your own schedule, connect directly with families, and do work that matters.

What the Job Looks Like

SafeHaven drivers do more than give a ride. You help a senior from inside their home, into your vehicle, and all the way to their appointment check-in — then back home again.

Medical Appointments

Doctor visits, specialists, and follow-ups.

Physical Therapy

Recurring weekly sessions you can plan around.

Prescription Pickups

Quick pharmacy runs, often paired with other trips.

Grocery Shopping

Help with the cart, the car, and the front door.

Social Visits

Family, church, senior centers, and community events.

Driver Requirements

- Active California driver's license in good standing.
- Clean driving record — we review it before your first trip.
- A reliable, comfortable vehicle that meets safety standards.
- Active personal auto liability insurance.
- Patience and genuine care for older adults. This matters most.

Why Drive With SafeHaven

Independent contractor work, built around your life.

Flexible Schedule

Accept only the trips that fit your availability. No shifts, no quotas, no dispatcher pressure.

Direct Referrals

We introduce you to families in your area. You coordinate schedules and terms directly with them.

No Agency Markups

You are not an employee of a staffing agency. There is no layer taking a cut of your work.

Repeat Riders

Most seniors travel on a routine. One good first trip often becomes a standing weekly booking.

Real Community Impact

You are the reason someone gets to their cardiologist, their church, or their daughter's house.

How to Get Started

- 1 Call or text us at 213-302-5960 and tell us the areas you can cover.
- 2 Send over your license, insurance, and vehicle details for verification.
- 3 Pass the background and driving record check.
- 4 Get matched with your first senior rider and set the schedule together.
